

Concurso Estudiantes

MIÉRCOLES 27 OCTUBRE. DE 15.30 a 20.30. SALA 2 - CENTRO DE CIENCIAS MEDIOAMBIENTALES, Serrano 115 Bis

- C-O-01 Ana García-Prieto. "Three Point Bending SEVNB Controlled Fracture Tests in Brittle Ceramics"
- C-O-02 Araceli de Pablos. "Nanocrystallisation in oxyfluoride glasses doped with Tm^{3+}/Yb^{3+} for optical devices"
- C-O-03 Elena Palacios. "Influence of the precipitation media in the synthesis of iron-lithium acid phosphates for Li-ion battery cathodes"
- C-O-04 Emilio López. "Fabricación of zirconium titanate bulk bodies through different processing approaches"
- C-O-05 Israel Lorite. "Isolated nanoparticle raman spectroscopy"
- C-O-06 Joana Queiroz. "Mechanical behavior of mullite-based EBC multilayer coatings under corrosion conditions"
- C-O-07 Julián Jiménez. "Formation mechanisms of hydrophobic luster glazes"
- C-O-08 Konstantina Konstantopoulou. "Cryogenic mechanical behaviour of second generation superconductor bulk materials"
- C-O-09 María Canillas. " TiO_2 and Ti_5O_9 : two titanium oxides with different properties and roles with one objective in common, the repair of the central nervous system"
- C-O-10 M^a Cristina Ramírez. "Anisotropic electrical and mechanical behaviour of SPS graphene nanoplatelets (GNPs) - silicon nitride composite"
- C-O-11 María Oset. "Wastewater Cr(VI) adsorption with hidrotalcite-like compounds"
- C-O-12 Mario Borlaf. "Synthesis and caracterización of nanoparticulate solds of TiO_2 doped with Eu(III)"
- C-O-13 Sandra Cabañas. "Dispersión of nickel oxide and hydroxide in aqueous media"
- C-O-14 Teresa Palacios. "Mechanical behaviour of directionally solidified $Al_2O_3/Er_3Al_5O_{12}/ZrO_2$ eutectic ceramics as function of the temperature"
